TAD JONES THREATENS

With Good Material and System Year Older Eli May Cause Trouble.

By DANIEL.

As we face another great football season one of the outstanding features is the fact that so few colleges have made changes in coaching. There seems to be a greater realization that defeat does not always trace back directly to the head coach and that results cannot be obtained if the chief mentor is not given time in which to build up a system.

Yale once more will have Tad Jones the man with the quarterback mind. at the helm. Jones failed to lead his Elis to the championship last season but they made a gallant fight, and seem to stand a fine chance this year Yale again has the material and it has a system which, a year older than it was in 1921, is more likely to achieve

big things.

Jones gave to the Blue last year a well rounded game built on a sound foundation. He learned divers lessons then and means to profit by them. This year he will have the capable help of so efficient a captain as Jordan, the back. Like Malcolm Aldrich, the leader of 1921, Jordan has many qualities which make him a good captain. His football capabilities never have been estimated at their true worth. Of course he was handicapped in that respect by the fact that he had to shine behind the brilliancy of Aldrich. But "Mac" is gone.

"Mac" is gone.

Pessimism at Nassau.

At Princeton Bill Roper again is in charge. Last season Bill did not meet with any too great success. He was hampered by injuries which left him not only without the services of these first rate players but retarded the development of the entire team. Roper was not blessed with too great a quantity of eligible material for the major tests. His outlook looks brighter now, but down at Old Nassau there seems to be a feeling of pessimism. This feeling is something not to be despised at any stage of the season. Overconfidence and lurid phrases have killed many an eleven.

Bill Fisher once more is coaching at Harvard. Bill has the help of a great captain in Buell, the drop kicker and quarterback. Buell is a likable chap, a youth with admirable qualities both in his relationship to his teammates and his ability to run a team.

Fisher again has splendid material. His line does not look as strong as it was last season, but the outlook at Cambridge is not quite as dark as some reports have made it. Fisher has quite a lot of experienced forwards and in addition he has a few players who were backs hast season and can be converted into ends and tackles.

Cornell faces the season with Gil Doble as coach. Doble worked wonders with the Ithacans last season, even if they did fail to hit the high pinnacle which their supporters were led to believe they were capable of attaining. Doble started a fine system last season and with many veterans on hand should make greater progress still this year.

Pennsylvania already is hard at work under John Heisman. Last season there was a report that Heisman would not be asked to return this fall, but there he is out with the man and Philadelphia critics are talking again of a champion eleven. Heisman has a number of true relations are talking aradin of a champion eleven. Heisman has a number of true relations and he also has a built of capable young men who got their elessing from fine propers where they were capable of attaining. Dothe teaters are talkin

particularly a young punter from Maryland by the name of Ready.

Columbia hit a pretty low level in 1921. It was erratic, in and out. But several players who were not eligible then are available now. Chief of these is Rhoderick, who will be remembered for his exploits as a back on the Boston College eleven which defeated Yale in 1920.

New York University has called Tom Thorp from Columbia to be its head coach, a great selection. Frank Gargen

coach, a great selection. Frank Gargan, former coach at New York University, has returned to Fordham, his alma mater, as coach. The College of the City of New York after having kept out of vareity football since 1907 has gone back to the game with Joe Neville coaching. Joe was quite a back at Yale and Kelley and E. M. Green.

the Army again has Major Daly.

a healthy sign. Pittsburgh will have the coaching of Gienn Warner for the last season, as next year will find him at Stanford. The East will be the loser by that change. Tom Davies, who was Glenn's big star last season, is helping Heisman

Special Dispatch to The New York Herald.

New Haven, Sept. 9.—A glimpse of the Yale football material has satisfied those who have seen it as being about the most promising Yale has had in at least ten years. As was the case last year, the great strength of the Ell group lies in the wealth of material for backfield positions. There are at least a dozen men, halfbacks, fullbacks and quarterbacks, who will come under the category of good varsity stuff and if Yale can find a man who can success-

One of the hardest workers in the entire varsity squad which engaged in the spring practice last April and May, plus those who were out for other sports at that time, are required to be on hand promptly, as the coaches hope to organize five teams in the very first week. The big Red team this fall will again be in charge of Glimour Doble, who directed Cornell's football destinies with such success last fall that the Red and White had one of the best football years in history. Doble spent part of the nummer operating a school for football coaches at University of Virginia, but he has returned to Ithaca and is getting in shape for the fall campaign on the golf links. He golfs every day and is one of the best players hereabouts. The lanky Scot will have the same assistant coaches as last year, Ray Hunt, whom he brought East from the Pacific coast, and Clyde Mayer, captain and fullback on the 1920 Cornell team.

The outlook for material is none too promising because of the loss of several outstanding players by graduation or scholastic difficulties, and the decimation of the freshman team of last fall by busts and probations, but compared with the situation in the last three seasons. Coach Doble will have no cause to complain. Cornell, in fact, should be in rather better shape than a year ago, and as last year's cleven was one of the best in the East and the greatest scoring machine in this section there would seem to be no ground for pessimism.

Center Trie Gone.

It is true that Cornell has lost the center trio of last year's team, G. L. Brayton, the center, being scholastically inclegible. As Brayton has developed into one of the best ceenters seen here in years Doble will have difficulty in

Yet difficult as the situation is, the Blue and White mentor is far from discourage! This is due to the fine spirit that has been shown by members of the squad who have just completed their first week of practice. As one promising haifback put it, "We are all out to help Bez develop another strong, team," and this spirit seems to pervade the entire group of candidates.

Two years ago, Bezdek was forced to shift backfield men into the line in order to bolster up the team. Capt. Haroid Hess and a number of other backs were converted into linemen that year and they made good. This fall Hugo must reverse the process and he is now experimenting with a number of linemen in his backfield squad.

The first experiment was with Dick Schuster, the big Williamsport boy who played tackle in 1920 and who returned this fall after a year's absence. Bezdek tried to develop Dick into a fullback, but the big fellow is a natural lineman and Hugo is loath to change him unless
